

Evgeni Syrakov, Yordanka Mihaylova, Silviya Petrova. SOME RELATIONS BETWEEN SURFACE LAYER'S AND PBL'S CRITERIA OF STABILITY

According to the joint studies of resistance laws in the planetary boundary layer (PBL) and integral R_{ib} -approach for parameterization in the surface layer and found relations and criteria for coordination between criteria of stability in the both layers.

Keywords: turbulent flux, Richardson number, resistance laws, criteria of stability
